

FOR CLASSES – III
Circular No. SGS/32/18-19

Dear Parents,
Warm greetings,

A beginning is a symbol of developing newer relationships. It is also one of the best times to create structures and build practices. Some of the best practices are those that set clear expectations. Awareness of some of the same helps develop focus and appropriate behaviors. As children step in to their new classes, with not only new notebooks and stationary, but new dreams and ideas too, it's only fair that we be prepared to lay the basis for them to be realized.

Let's begin this session with a hope for bright year and an endeavor to create a culture of learning! We will have **Parents Orientation Program of Grade III** that will celebrate your excitement and calm your anxiety. That day would be filled with lots of information and discussions. We look forward to having you as our guest at school campus on **Saturday, 28th April 2018 from 9:00 am – 12:00 noon**. It will help you to build a better understanding of how the learning takes place in the classes and also get the opportunity to meet the class teacher and subject teachers of your wards.

Note:- Students will have their OFF on Saturday (28.04.2018). Do not bring your ward to school on that day as it will affect your active participation in Orientation Program.

Best Regards

(PRINCIPAL)
