WINTER HOLIDAY HOMEWORK

SESSION 2020-2021

CLASS –5

ENGLISH

This year has been tough, yet we made through it successfully. 2021 should be full of memories, good ones. So, let's record the memories of the first week of this new year. Write daily journals and keep a record of the best memory of each day.

You can take A4 size sheets (coloured/white), cut them in a beautiful shape and write one journal daily before going to bed. Since, these journals are going to be with you for a long time, decorate them, colour them and keep them safe!

SCIENCE

The following research based project is based on Water.

Scarcity of water in India and its conservation .

Water is life. It's vital. It supports the immense diversity of life on earth. It's a source of food, health and energy. Freshwater makes civilization possible. But fresh water, in turn, isn't possible without a healthy planet- and human actions are putting the healthy planet at risk.

Topic : Issues related to freshwater scarcity

Make a PPT of not more than 8-10 slides on how each of these issues is affecting fresh water supply in our country. (include Pictures, GIF, animated videos etc..)

- Climate change
- deforestation
- fresh water supply limit
- Pollution

OR

Topic: Rainwater harvesting

Read about Rainwater Harvesting as an ancient Indian method of water conservation. Make a PPT of not more than 8-10 slides
