#### **English**

Self analysis is a systematic attempt by an individual to understand his or her own personality without the aid of another person. To understand yourself think of 5 qualities of yours and write a Simile for each one where you compare yourself to an animal or thing that has the same quality.

For example, I am as fast as horse.

Then, use your similes to write a poem about yourself and don't forget to draw pictures to go with your poem.

A) As we have done Block -13 'Celebrating Festivals', we learnt about different religious festivals. Choose any one festival among them and create an e-poster in MS Word and mention what do you like the most about that. (Add few pictures of the same)

B) In this lockdown, there were many festivals which came. Write an essay to describe how you celebrated them and what skills you learnt (decoration, cooking special dishes, rangoli, greeting cards, etc) during the festive time. How did you help your parents during the festival?
